

IN THE CLAIMS:

Please amend Claims 101, 121, and 122, as provided in the following Listing of Claims:

Listing of Claims:

Claims 1-100. (Canceled)

Claim 101. (Currently Amended) A computer-implemented method, comprising:

at least one of receiving and storing information regarding a first request by a content provider to be notified regarding an occurrence of an event, wherein the event is at least one of a request by a merchant for advertising space, a ~~change in~~ storing of an offered price for an advertising space, and a ~~change in~~ storing of a term or condition for an advertising offering;

at least one of receiving and storing information regarding at least one of a request by a merchant for advertising space, a ~~change in~~ an offered price for an

advertising space, and ~~a change in~~ a term or condition for an advertising offering;

detecting the occurrence of the event with a processing device;

generating a first message containing information regarding the event with the processing device, wherein the first message is generated by the processing device in response to the occurrence of the event;

transmitting the first message to a computer or a communication device associated with the content provider;

receiving a second request, wherein the second request is transmitted from the computer or the communication device associated with the content provider, wherein the second request is a request for information regarding an offer by a merchant associated with the event to create or establish an affiliated marketing relationship;

generating a second message, wherein the second message contains at least one of information regarding the offer by the merchant to create or establish an affiliated

marketing relationship, information regarding the merchant,
and contact information regarding the merchant;

transmitting the second message to the computer or the
communication device associated with the content provider;

receiving information indicating that the content
provider has accepted the offer by the merchant to create or
establish an affiliated marketing relationship;

processing the information indicating that the content
provider has accepted the offer by the merchant to create or
establish an affiliated marketing relationship between the
merchant and the content provider;

storing information regarding the affiliated marketing
relationship between the merchant and the content provider;

generating a third message containing information that
the affiliated marketing relationship was created or
established between the merchant and the content provider; and

transmitting the third message to a communication
device or a computer associated with the merchant.

Claim 102. (Previously Presented) The computer-implemented method of Claim 101, wherein the computer-implemented method is performed via, on, or over, at least one of the Internet and the World Wide Web.

Claim 103. (Canceled)

Claim 104. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

transmitting information regarding an advertisement associated with the merchant to a computer associated with the content provider via, on, or over, at least one of the Internet and the World Wide Web.

Claim 105. (Previously Presented) The computer-implemented method of Claim 104, wherein the information regarding an advertisement associated with the merchant includes a banner advertisement.

Claim 106. (Previously Presented) The computer-implemented method of Claim 104, wherein the information regarding an advertisement associated with the merchant includes a logo or an icon.

Claim 107. (Previously Presented) The computer-implemented method of Claim 104, wherein the information regarding an advertisement associated with the merchant includes a link to a computer or a web site associated with the merchant.

Claim 108. (Previously Presented) The computer-implemented method of Claim 104, further comprising:

placing information regarding the advertisement associated with the merchant on a computer or a web site associated with the content provider.

Claim 109. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

determining a commission or a referral fee due to the content provider pursuant to the affiliated marketing relationship.

Claim 110. (Previously Presented) The computer-implemented method of Claim 109, further comprising:

processing a payment of the commission or the referral fee due to the content provider pursuant to the affiliated marketing relationship.

Claim 111. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

processing information regarding a web site or a link visited, utilized, or navigated, by an individual or a user in connecting to a computer or a web site associated with the merchant.

Claim 112. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

storing information regarding a commission or a referral fee earned by the content provider pursuant to the affiliated marketing relationship.

Claim 113. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

storing information regarding a payment of a commission or a referral fee to the content provider pursuant to the affiliated marketing relationship.

Claim 114. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

at least one of storing and providing information regarding a past success rate of an advertisement and a success rate of the content provider.

Claim 115. (Previously Presented) The computer-implemented method of Claim 101, wherein the third message is transmitted in an e-mail message.

Claim 116. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

administering a financial account for the merchant or for the content provider.

Claim 117. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

at least one of processing a financial transaction for the merchant or for the content provider, effectuating a payment from the merchant to the content provider, and receiving a payment on behalf of the content provider.

Claim 118. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

processing information regarding a transaction pursuant to the affiliated marketing relationship;

generating a transaction notification report containing information regarding the transaction and a commission or a referral fee due the content provider; and

transmitting the transaction notification report to the computer or the communication device associated with the content provider.

Claim 119. (Previously Presented) The computer-implemented method of Claim 101, further comprising:

providing notification to the content provider of the occurrence of a transaction pursuant to the affiliated marketing relationship;

determining a commission or a referral fee due to the content provider as a result of the transaction; and

effecting a payment of the commission or the referral fee to an account associated with the content provider.

Claim 120. (Canceled)

Claim 121. (Currently Amended) A computer-implemented method, comprising:

at least one of receiving and storing information regarding a first request by a content provider to be notified regarding an occurrence of an event, wherein the event is a ~~change in~~ storing of an offered price for an advertising space;

at least one of receiving and storing information regarding ~~a change in~~ an offered price for an advertising space;

detecting the occurrence of the event with a processing device;

generating a first message containing information regarding the event with the processing device, wherein the first message is generated by the processing device in response to the occurrence of the event;

transmitting the first message to a computer or a communication device associated with the content provider;

receiving a second request, wherein the second request is transmitted from the computer or the communication device associated with the content provider, wherein the second request is a request for information regarding an offer by a merchant associated with the event to create or establish an affiliated marketing relationship or to create or establish an advertising relationship;

generating a second message, wherein the second message contains at least one of information regarding the offer by the merchant to create or establish an affiliated marketing relationship or to create or establish an

advertising relationship, information regarding the merchant,
and contact information regarding the merchant;

transmitting the second message to the computer or the
communication device associated with the content provider;

receiving information indicating that the content
provider has accepted the offer by the merchant to create or
establish an affiliated marketing relationship or to create or
establish an advertising relationship;

processing the information indicating that the content
provider has accepted the offer by the merchant to create or
establish an affiliated marketing relationship or to create or
establish an advertising relationship between the merchant and
the content provider;

storing information regarding the affiliated marketing
relationship or the advertising relationship between the
merchant and the content provider;

generating a third message containing information that
the affiliated marketing relationship or the advertising

relationship was created or established between the merchant and the content provider; and

transmitting the third message to a communication device or a computer associated with the merchant.

Claim 122. (Currently Amended) A computer-implemented method, comprising:

at least one of receiving and storing information regarding a first request by a content provider to be notified regarding an occurrence of an event, wherein the event is a ~~change in~~ storing of an offered price for an advertising space and a ~~change in~~ storing of a term or condition for an advertising offering;

at least one of receiving and storing information regarding a ~~change in~~ an offered price for an advertising space and information regarding a ~~change in~~ a term or condition for an advertising offering;

detecting the occurrence of the event with a processing device;

generating a first message containing information regarding the event with the processing device, wherein the first message is generated by the processing device in response to the occurrence of the event;

transmitting the first message to a computer or a communication device associated with the content provider;

receiving a second request, wherein the second request is transmitted from the computer or the communication device associated with the content provider, wherein the second request is a request for information regarding an offer by a merchant associated with the event to create or establish an affiliated marketing relationship or to create or establish an advertising relationship;

generating a second message, wherein the second message contains at least one of information regarding the offer by the merchant to create or establish an affiliated marketing relationship or to create or establish an advertising relationship, information regarding the merchant, and contact information regarding the merchant;

transmitting the second message to the computer or the communication device associated with the content provider;

receiving information indicating that the content provider has accepted the offer by the merchant to create or establish an affiliated marketing relationship or to create or establish an advertising relationship;

processing the information indicating that the content provider has accepted the offer by the merchant to create or establish an affiliated marketing relationship or to create or establish an advertising relationship between the merchant and the content provider;

storing information regarding the affiliated marketing relationship or the advertising relationship between the merchant and the content provider;

generating a third message containing information that the affiliated marketing relationship or the advertising relationship was created or established between the merchant and the content provider; and

transmitting the third message to a communication
device or a computer associated with the merchant.
